PRODUCT SPECIFICATION (Private and Confidential)

Product Name:	Black Cherry Filling
Product Code:	BCBR040536
Customer:	Bradley's
Product Description:	Black Cherry fruit preparation stabilised with Modified Waxy Maize Starch with visible fruit pieces. Free from Taints or off flavours.
Country of Origin:	Manufactured in UK

Product Details:

Ingredients Breakdown	%	Country of Origin
IQF Cherries	40.00	Poland, Belgium
Water	35.97	UK
Sugar	18.00	UK, Poland, France, Belgium, Germany, Netherlands, Mauritius, Guatemala, Thailand, Austria
Modified Waxy Maize Starch	5.30	Italy, Germany, France
Anthocyanin - Grape Skin Extract E163	0.40	France, Spain, China, UK
Citric Acid E330	0.10	China, Austria
Potassium Sorbate E202	0.10	China, Germany
Natural Flavouring (Black Cherry) Carrier: Propylene Glycol E1520, Water	0.10	UK
Spinach Extract	0.03	Slovenia
	To 100%	

Ingredient Declaration:	Cherries, Water, Sugar, Stabiliser: Modified Waxy Maize Starch, Colour: Grape Skin Extract, Spinach Extract, Acidity Regulator: Citric Acid, Preservative: Potassium Sorbate, Natural Flavouring.
Allergens:	For allergens including cereals containing gluten, see ingredients above in bold .
GMO:	Modified Waxy Maize Starch - Valid IT or SGS IP Certified Citric Acid - Valid IT or SGS IP Certified
Packaging:	White Polypropylene bucket & lid, with diaphragm seal.
Unit Net Weight:	10kg
Storage Details:	Storage Unopened at Ambient (15-22°C), Cool, dry, away from direct sunlight and preferably less than 20°C. Measures to maintain this range are to be taken during heatwave conditions. Once opened store chilled 0 - 5°C
Shelf-life:	6 Months from date of production in storage conditions as above if unopened. If opened, packaging should be kept sealed, refrigerated and used within 5 days.
Minimum Life on Delivery:	70%
Delivery Details:	Ambient transport
Labelling Details:	Naked Foods Label with Product Description, Weight, Batch Number, Use by date, Storage Instructions.

Microbiological Specification:

Test	Target (cfu/g)	Reject (cfu/g)
TVC	≤1000	>1000
Yeast	≤10	>100
Mould	≤10	>100
Testing Frequency	<i>Micro testing is not done for every product produced, unless required by the customer & costed into their product accordingly. Micro testing is done on between 30+ products per week and is used as an indicator on process, hygiene and site GMP. These results are used to establish the micro limits for the site as a whole. Example results available on request.</i>	

Legal Compliance Statement

The information provided in this specification is correct to the best of our knowledge and experience at the time of writing. Naked Foods Limited confirms that this product will be manufactured in accordance with this specification and that this product, including food contact packaging will fully comply with all relevant UK/EU legislation.

Health & Safety

Spillages can be washed away with water.

Skin contact is harmless - rinse thoroughly with water.

Product is non-flammable.
